

A Transformational Evangelism Initiative of the Adventist Church in North America
2019 Grant Application

"When Jesus saw the crowds He was moved with deep Compassion for them..."-Matthew 9:36

"Christ's method alone will give true success in reaching the people. The Savior mingled with men as one who desired their good. He showed His sympathy for them, ministered to their needs, and won their confidence. Then He bade them, "Follow Me."-Ellen G. White

Guidelines

This is a one-time grant.

CRITERIA:

1. The Transformational Evangelism/Compassion 10Million Grant of \$15,000.00 must be used absolutely to reach the community with acts of love and service (grant must not be used to pay the salary of a Pastor, Bible Worker, or anyone; or to fund a Series of Proclamation Evangelism).
2. Matching grants of \$2,500.00 each will be provided by the Union and the local Conference. (NAD - \$10,000.00; Union - \$2,500.00; Conference - \$2,500.00 totaling in \$15,000.00).
3. The local Conference will oversee the collection of proposals from the churches and determine the deadlines, select the project, and forward it to the Union and NAD. After the NAD approves it and sends the funds to the Union, the Union will disperse the grant money to the Conference, which will be responsible to disburse money to the church and oversee the project. The Selection Process Team at the Conference Office may be formed by Ministerial, Evangelism, Multi-Ethnic/Multilingual Directors with Conference Administration or simply the Evangelism Committee).
4. This \$15,000.00 grant is not intended to be divided into smaller amounts among different churches; it is meant to provide help to one congregation in its effort to reach the community (smaller amounts may become insignificant in the fulfillment of community needs).
5. The \$15,000.00 grant is intended to be "seed money" for a long-term sustainable community initiative by the local church; something that will go on after the year is finished and the \$15,000.00 are invested.
6. Some members, whom we call 'incarnational members' must reside in the chosen location and be involved with the project. The suggested minimum participation: 20% of membership.
7. An integrated, sustainable cycle of wholistic ministry plan must be voted by the participating congregation.
8. Discipleship is a foundational feature to equip and develop members to become difference makers. Participating congregations should prayerfully unite to provide a spiritually healthy and welcoming environment for discipleship to take place.
9. A long-term commitment to community strengthening will be another central feature. A community needs assessment should be done (see Appendixes B & C on our website) and of church members' expertise and commitment (see Appendix D on our website) and then the two matched to help determine what the project(s) should be.
10. Where possible, other organizations/resources from the community should be engaged. Rather than being event-driven, the ministry should include a long-term commitment to strengthen the community in an identified area of need (some examples: a tutoring program, a prison ministry, hunger, poverty, human trafficking, community garden, etc.)
11. A 'reaping' component, while it is an essential part of the cycle of evangelism, should not assume primary emphasis or expense.
12. Free consultation and assessment tools are available at the NAD Assessment Office (301-680-6407) to assist you in evaluating the need, progress, and impact of your project.

"...the church is the church only when it exists for others..." -Dietrich Bonhoeffer

"We hear again and again, both from the unchurched and from local churches that are deeply engaged with the unchurched in their communities, that loving, genuine relationships are the only remaining currency readily exchanged between the church and the churchless." - George Barna
